AT CASS LAKE, MINN. GASS LAKE, Minn., Feb. 8.-Gabe-nah-gewn-wonce, also known as John Smith, a Chippewa Indian, reputed to be 137 years old, died here

The "Old Indian," as he was generally known among the white peole, was active until six months ago. A year ago he became totally blind, but his mind remained clear to the last, and he often recalled the days when he was a scout for the Chippewas in the wars with the Sioux. He also remembered events of the war of 1812. He had been married eight times, but had no children.

G. O. P. Leaders Say Reduction Will Be Far Below Parley Limit.

By GEORGE R. HOLMES. International News Service (Copyright, 1922.)

the house in flames, Mrs. Marver The American navy is in for the greatest cutting it has ever experienced at the hands of Congress-a slashing that will carry it far below the mark set by the armament conference.

Ships, Stations, and Men. Republican leaders in Congress, those who handle the money bags, informed the International News Service today that the American navy is just about twice as big as is necessary, and that it will be reduced by approximately one-halfappropriations; personnel, both en-listed and commissioned; ships, shore stations, and other factors that go to make up a navy.

"The big navies of the world are now limited," they said. "Why do we need a big navy? Besides, we have an economy program to put through, and we need the money. The first touch of the knife will be felt in appropriations for upkeep. The budget estimate calls for an appropriation of \$425,952,367.

This will be cut at least \$225,000,000, Congressional leaders said, leav-

ing but slightly over \$200,000,000 to run the navy from June 30, 1922, to June 30, 1923. In the original estimate was \$90,-1916 building program. This will be

knocked out. In the original estimate was \$145,-154,191 for the pay and subsistence of the navy. They aim to cut this in half by the simple expedient of reducing the personnel.

Will Leave 60,000 Men.

The present authorized strength of the navy is approximately 106,000 men and 5,900 officers. Before the House gets through with its plans the strength of the navy will be not more than 60,000 men and 3,000 officers, its leaders said today.

The Congressional pruners are frankly expecting a howl to go up from navy heads over the slashing program prepared. They are pre-paper to meet this, however, with the assertion that the war bogey has been chased away now for fifteen years, at least, and that this fact can only be translated to the voters and taxpayers of the country by reduced expenditures and consequent reduc-

# SYRUP PEPSIN IN OLD AGE

Much used by elderly people for constipation, biliousness, headaches, etc.

MANY men and women, as they grow older, suffer constantly from little ills. The cause is the poisons produced by chronic constipation, resulting in headaches, depression. bloating, sour stomach, bad breath, etc. A single bottle of Dr. Caldwell's Syrup Pepsin will prove to you that you can so regulate yourself that elimination will occur promptly every day. Increased doses are not necessary. It is a combination of Egyptian Senna and other simple laxative herbs with pepsin. The cost is only about a cent a dose.

In spite of the fact that Dr. Caldwell's Syrup Pepsin has been on the market 30 years

and is today the largest selling liquid laxative in the world, the formula has never been improved upon. It is safer and better for you than salts, minerals, calomei, coal tar and such drastic purgatives.
